Army Medical University (AMU) (Chongqing, China)

Army Medical University is a national fundamental university founded in 1954.

In addition to medicine, it specializes in the fields of pedagogy, science, engineering, strategy management.

Currently the university offers 13 specialized fields such as nursing, clinical medicine, preventive medicine, clinical examination medicine, visual medical science, and experimental medicine technology.

In addition, it has three affiliated training hospitals total beds of 5,000 beds. These affiliated hospitals place their emphasis on science and technology in order to improve the quality of medical services and increase efficiency. They have all received high praise in China. At the same time, in order to encourage the development of healthcare services in poorer areas, the university actively provides support to regional hospitals responsible for primary care in the western region of China.
